Robbie Hudson posted:

I'm really sorry to hear about his passing. I was in one of his Stun Tech instructor classes in 1996 for VA DOC. He was a very funny and wise man. I loved to hear his stories about days on the force, individuals who used his devices and about all his equipment he'd created. I even made a special gift for them before they left. I've always wanted to get back in touch with him even though I left law enforcement in 2002. Really wish I'd looked him up before now. Even though time has passed, my condolences for his family. Dennis Kaufman, you were a very intelligent and funny man, I will always remember those great times and the conversations we had that week and the other phone calls. Fly high and RIP.
