My Uncle Ronnie was was a very smart person and good with his hand's. While growing up, Ronnie was an Auto Tech and had seen him tear down cars and rebuild them from the ground up. He had a keen eye and was very savvy in regards to Car's, Car Repairs and knew how they worked. Not only was Ronnie gifted in Auto Repair's, but I had seen and helped my uncle on a few occasions when he was working on homes. One summer break from High School we had painted a few houses. He had taught me how to paint using a paint (spray) gun. I most defiantly had a good time with Uncle Ronnie. And bye the way, he LOVED to eat. There was a spot on Lee Road by ABC lettering he liked to frequent for breakfast at one point. Rest well Uncle Ronnie, I will miss you.
